Offering Therapeutic Feeding Solutions and Peace of Mind for the WHOLE Family Through A Partnership in Education, Resources, Referrals, Evaluation, Treatment and Support

Our Recipe for Success

- Collaborative effort with BOTH a speech pathologist AND occupational therapist trained in a wide range of feeding treatment strategies
- Guided support through your entire journey
- Support for your whole family
- Strong emphasis on parental education
- Individualized treatment plans based on the needs of your child and family
- Transdisciplinary approach with access to a wide range of professionals including speech pathologists, occupational therapists, physical therapists and a dietitian
- Inclusive directory of support professionals including psychologists, pediatricians, gastroenterologists, ENTs, and allergists
